Description

This is a widescreen update for C&C : Generals - Zero Hour. C&C Generals Zero Hour: Widescreen Unzip GAMEDATA.INI into your "Command & Conquer Generals Zero Hour\Data\INI" folder. (typically under Program Files) Edit MaxCameraHeight to adjust the FOV. Default setting is 310. Setting it to 410 is approximately the same as a 4:3 monitor, and 510+ gives you a widescreen advantage.

Hi, While it did increase the camera height it didn't change the resolution. So frustrated that apparently changing the resolution of the Origin version of Generals and Zero Hour seems to be impossible.....

From Stack Exchange

Inside your My Documents folder, you will find a Command and Conquer Generals Data folder
 Inside this folder you will find a file called Options.ini, edit this file
 Find the line that says Resolution = and change the value from whatever it is to whatever you want
 For example, for a resolution of 1600x900, you will want to set the Resolution = line to Resolution = 1600x900.

How to play Zero Hour in ultra wide:

1. Install Generals and Zero Hour
2. Run Zero Hour a few seconds in a skirmish battle
3. Close the game and go back to desktop
4. Go to C:\Users\YourUserName\Documents\Command and Conquer Generals Zero Hour Data
5. Change "options.ini" and change the resolution to whatever you would like: Resolution = 5120 1440
6. Go to YourPathTo\Origin Games Cache\Command and Conquer Generals Zero Hour\Command and Conquer Generals Zero Hour\Data\INI
7. Create an empty "GameData.ini"
8. Copy all content from [Pastebin.com](https://www.pastebin.com)
9. Change "GameData.ini": MaxCameraHeight = 1000.0
10. Change "GameData.ini": DrawEntireTerrain = Yes
11. Start Zero Hour and enjoy the experience

How to play Generals in ultra wide after you have done Zero Hour:

1. Run Generals a few seconds in a skirmish battle
2. Close the game and go back to desktop
3. Go to C:\Users\YourUserName\Documents\Command and Conquer Generals Data
4. Change "options.ini" and change the resolution to whatever you would like: Resolution = 5120 1440
5. Go to YourPathTo\Origin Games Cache\Command and Conquer Generals Zero Hour\Command and Conquer Generals Data
6. Create folder "INI"
7. Create an empty "GameData.ini"
8. Copy all content from [Pastebin.com](https://www.pastebin.com)
9. Change "GameData.ini": MaxCameraHeight = 1000.0
10. Change "GameData.ini": DrawEntireTerrain = Yes
11. Start Generals and enjoy the experience
